Meet the successor to the C.O.E.

New **L.C.F.** (Low Cab Forward) *Chevrolet Task·Force Trucks*

Powered by the most modern V8 in any truck... Chevrolet's new Taskmaster V8 engine!

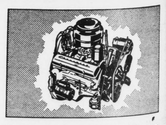
Chevrolet's great new L.C.F. models bring you all the advantages of a C.O.E.—plus a long list of important new advances you won't find anywhere else!

For example, the cab is a full seven inches lower than former C.O.E. models. And it has only *two* steps instead of the usual three for C.O.E.'s. Just think of the time and effort this will save the driver every time he gets in and out of the cab! Also, the low L.C.F. is handsomer by far than any C.O.E. ever built! What's more, in an L.C.F. you still get the easy maneuverability of a C.O.E.—plus sturdier frames, new suspensions and many more modern-truck features.

Inside, the L.C.F.'s new Flight-Ride cab has a *level* floor with plenty of "stretch-out" leg room and offers the same driver convenience you'll find in *all* new Chevrolet trucks. The driver has a commanding view of the road—through the big, broad panoramic windshield.

Quicker, simpler maintenance is another big advantage offered by Chevrolet's new L.C.F. models. Everything's easier to reach in the roomy engine compartment.

If you don't get the all-modern advantages offered by the new Task-Force trucks, you're getting an old-fashioned truck and stand to lose money on the job and at trade-in time, too. Come see the most modern trucks of all!



Shortest Stroke V8 of All! The new Taskmaster V8—the most modern V8 your money can buy—powers the new L.C.F.! It has a 12-volt electrical system (*twice* the "steam" for starting!).

Year after year, America's best selling truck! CHEVROLET
